WASHINGTON.

WASHINGTON, March 18, 1873. Spanish Rule in Cuba on its Last Legs. Advices have been received at the Navy Departent to the effect that the change from monarchy to a republic in Spain has caused a delay in the transportation of troops and war supplies to Cuba. The insurgents have taken advantage of this state of affairs and become more aggressive than ever. Large reinforcements were expected by the mish authorities in Cuba, but not more than ave hundred fresh troops (being only part of the promised number) were landed last week in the island. This has encouraged the insurgents to un-

the important engagements that have lately taken place in the Eastern Department of Cuba. Thurman Thundering at the Kansas

dertake a more active warfare than hitherto, hence

Corruptionist. Senator Thurman made a remarkable speech today on the case of Caldwell, which he reviewed at great length. He took almost the same ground as Senator Schurz, going, however, more deeply into the judicial bearings of the case. The friends of Caldwell seem to make it their special aim to annoy those speakers who oppose the whitewashing of their protege. Carpenter and Conkiling interrupted the Senator from Ohio every now and then by some impertinent remark or question, until Thurman, tired of being bothered, rebuked each of them, and raised a laugh at the expense of Conkling. Thurman spoke for nearly three hours, and when he concluded the Senate went into executive session on the nominations, the most prominent among which was that of ex-Senator Sawyer as Assistant Secretary of the Treasury. He was confirmed. Serious Charges Aga inst Senator Cas-

serly-Catifornians Asking for an Investigation. While Caldwell hangs by the hair of a quibble

over the precipice of infamy, Powell Clayton shelers himself behind the rampart of a majority report, and Bogy asseverates upon his honor that his skirts are spotless and suspends his Senatorial function pending inquiry by, and quittance from, his peers, word comes from the Pacific Coast that conveys assurance that the political epidemic of bribery and corruption, so far as charges go, is confined neither to locality nor party. The victim of the foreshadowed investigation is the democratic social and political leader and bon vivant, Eugene Casserty, senior Senator from the State of California. A memorial is said to be on its way asking that the manner and motive of Casseriv's election be investigated, and said memorial is aid to specifically set forth that the Bank of California paid \$175,000 to secure the election of Mr. Casserly to the United States Senate. Mr. Casserly is said to be very comfortably off, and in the matter of standing and ability admirably fits that edium niche termed respectable. He has filled the office of State Printer in California, and is an old newspaper publisher and editor. Unlike Caldmental penury, considered in connection with his presence in the United States Senate, imposes the burden of proof to how he got there, Casseriv is a ready debater, a smooth talker and an extreme member of the minority. Those that boast of inside knowledge here as to the proposed investigation say that if the memorial is enained and acted upon, the dependent inquiry will develope a case of corporation tyranny and un scrupulousness without parallel in current history, unding in such local despotism. In brief, it is alleged that it will appear that a handful of men, controlling in great measure the finances of the Pacific Coast, styled the Bank of California, have absolute possession of the public interests, as well as dictate private enterprises, in that State, the people but registering their will and choosing officers, from federal representatives down, at their dding and through the manipulation of their minions. This investigation, if it be had, will be the entertaining and edifying feature of the next ses-

Opposition to Collector Casey. Colonel Casey's confirmation as Collector of

New Orleans is earnestly opposed. Senator West is against him, but more, he says, in the interest of State of Louisiana than with the hope of defeating him. It is said the vote will be close.

Recognition of the Citizenship of South-

ern Men. Congress, by an act approved March 3, 1873, has thorized the payment, without proof of loyalty, of claims for compensation on account of services for 1860. The Interior Department, in order to save expenses to claimants, has prepared the forms, stating that the intervention of an attorney will not be necessary, and this is the first public recognition of the citizenship of Southern men

Five Millions Saved to Uncle Sam. The Commissioner of Internal Revenue, acting under a late decision of the United States Supreme Court, has rejected seven claims made by railroad companies for the refunding of taxes paid on interest dividends and profits. These claims aggregate \$363,600. This ruling applies to all corporations who make dividends and have bonds and securities on which they pay interest, or where they carry surplus profits to a special fund. The estimated saving to the government by this decision is about five millions of dollars.

Mr. William H. West, late Chief Clerk of the Treasury, died last night. He had been in the Treasury since 1837, and was appointed Chief Clerk by Secretary McCulloch, and transferred to another office in the department by Mr. Boutwell.

John W. Douglas' Skirts Clear. The sub-committee of the House Committee on Claims, to whom was referred the investigation of the claim of Mr. John W. Douglas, Commissioner of Internal Revenue, have reported that in all the proceedings, evidence, &c., "there is nothing to show that Mr. Dougias is not a high minded, a faithful and honorable public officer."

An adjourned meeting of the committee appointed to consider the expediency of supplying

the city with salt water was held yesterday. Mr. GEORGE T. Hope appeared on behalf of the nsurance companies and spoke of the inefficiency of the Fire Department in case of conflagrations like Boston and Chicago. He advocated the establishment of reservoirs in the lower parts of the city, a more effective organization of the engineers,

city, a more effective organization of the engineers, with special instructions to blow the walls of buildings inward, in case of fire, instead of outward, by which fire was spread, as in the case of Boston.

Mr. George W. Savage advocated the introduction of the Holly system as very desirable, and it could be accomplished for about three hundred thousand dollars.

Mr. Perley, civil engineer of the Fire Department, agreed as to the propriety of blowing up buildings, but was of the opinion that what was wanted was larger mains and larger outlets, and more hydrants. There were some parts of the city in which they were 800 feet apart, and he also recommended the consequetion of fron fire boats, to be exclusively under the control of the Fire Department.

The committee adjourned until Monday next. ommended the commended the exclusively under the control of the comment.

CELEBRATION OF THE COMMUNE.

Ball and Banquet at the Germania Assembly Rooms-Revolutionary Decorations-Speeches and Toasts-Members of the Old Commune Present.

The Société des Réfugis de la Commune celebrated last evening the anniversary of the "Paris Social Revolution of 1871." A banquet and ball were given in the Germania Assembly Rooms at which was gathered a very large number of the restless "exiled" sons and daughters of La Belle France. The red ribbon was prominent in their costumes, and indeed set off with fine effect the dark type of beauty and manhood that aside from their incessant and sparkling vivacity was the chief characteristic of the revellers. The ball room was also decorated with a score of red flags bearing the customary inflammatory mottos strongly expressed. One of these had a little history which may be remembered with smiles at its ludicrousness. It was the cause of the arrest of several of the most fervid communists of the city when it was flaunted to the breeze in the public streets on a Sabbath about a year ago. Its flery folds were last night hung from the railing of the music gallery. Above it was the

In its centre is a large picture of a scene in the history of the Commune, with the words:—

THE SPIRIT OF THE COMMUNE EXPANDS AS THE AXE OF THE EXECUTIONER FALLS UPON THE NECKS OF ITS MARTYRS.

Opposite this, pendent from the spectators' gallery, was another large banner, upon which might be read an inscription running thus:-

THE WORKER. JUSTICE TO LABOR, LIBERTY IN RIGHT. EQUALITY IN LAW. FRATERNITY IN INTERESTS.

EQUALITY IN LAW.

FRATERNITY IN INTERESTS.

The other mottoes were those which have often been seen in the processions of the labor movement, viz.:—"Equal Rights, Oppertunities and Compensation." "Nationalization of Land, Labor, Education and Insurance," "Public Employment a Remedy for Strikes," "Eight Hours, Feaceaby if we Can, Forcibly if we Must," "The Unconsumed Products of the Past Should be an Equal Inheritance to the Living Generation," "The Laws Must be Submitted to the People," "Government Protection and Provision from the Crave," and "Interest on Money is a Direct Tax Upon Labor to Support Wealthy Faupers." The "banquet" began at haif-past eight o'clock, about five hundred people sitting at the tables. Prominent among those present were Dr. Parisel and Citizens Magie and Gustav May of the Commune, On motion of Citizen Christenent Citizen Banks presided. Citizen Magie being called upon for a toast, propose-the health of August Blanqui, henorary President of the occasion, somewhat famed for his long imprisonment in France after his capture by the soldiers of the Republic, Cheers followed, and cries of "Vive M. Blanqui" Citizen Maloney offered the loast of "The International Workingmen's As-

sociation—May the three planks of its platform, Liberty, Fraternity and Equality, expand until they cover the whole universe !! (Cheers) cover the whole universe." (Cheers.)
Citizen GUERINIERE, at the end of a warm speech,

with applause.

After the banquet, speeches were made in the ball room by citizens Maddox and Banks in English, and citizens Sauva and Marcelet in French. The ball then commenced, and was a scene of unrestrained gayety until an early hour this morning.
